

What is the Current State of INDIA - U.S. Relation? -

- Since the End of Cold War, the relationship is becoming closer, the most exciting event was Civil Nuclear Deal, there has been no big ticket even at par with Civil Nuclear Deal but relationship is becoming wide & deep.

The most important aspect of India - U.S. Relation in present time is 'defence - Partnership' as far as bilateral dimension is concerned & Co-operation in Indo-Pacific in context of Regional Order.

Defence - Partnership -

India - U.S. Defence Partnership is growing from Strength to Strength.

i) As per SIPRI (Stockholm ^{International} ~~Institute~~ ^{Institute} for Peace Research Institute) ~~India's~~ U.S.A's defence export reached to India with a figure of around \$ 21 bn.

ii) There is a qualitative transformation in the defence trade.

a) Under Obama, India was given the status of Major Defence Partner. It allows India to get high technology weapons at par with USA's closest allies like - U.K.

b) Under Trump, India was given STA - 1 status.

Strategic Trade
Authorisation.

which reduces the Red - Tapism & create the scope for fast transfer of high tech weapon & technology.

iii) India - U.S. Defence Partnership has gone beyond buyer & seller Relationship.

- Under Obama, DTTI (Defence Trade Technology Initiative) was started with "Path-Finder Projects", aiming at - transfer of technology, joined production of weapon.

iv) Since the end of Cold war, India and U.S. are having Defence Co-operation Framework Agreement for 10 years.

During Obama's visit in 2015, it was renewed for 10 years.

• P.M. Modi has been unapologetic while making the state that India-U.S. Relations has overcome the hesitation of the past. This is evident the most in the field of defence.

At present huge inter operability has emerged b/w the forces. A Reason to conclude that India has become De-facto ally of U.S.A.

There is a regular Military Exercises among all the three exercises, recently exercises have also started b/w the Coast Guards.

Regular Military exercises happens in both bilateral & Multi-lateral Framework → (QUAD, Rim of Asia-Pacific Exercises).

U.S navy also participate in "Indian ^{Ocean} Naval Symposium" (IONS)

Beside Military Exercises India has also overcome the hesitation & has signed all Defence Framework Agreement with USA.

EUMA: End User Monitoring Agreement.

- a) EUMA — End User Monitoring Agreement) in 2012.
- b) LEMOA — (Logistical Exchange Memorandum Agreement) in 2016.
- c) COMCASA — in 2018.
- d) BECA — in 2020 (Communication & Satellite Exchange)
- e) ISA — (Industrial Security Annexure) in 2019)

The most important element in Defence Co-operation is Maritime sphere.

Under Strategic Partnership, they exchange dialogue over Regional Security issues.

Besides Defence, India - U.S. trade & Investment is also growing. USA has become India's third largest trading Partner, largest export market, The bilateral trade in 2021 has reached to the level of \$157 bn.

US investment in India = \$45.45 bn (2021)

India's investment in U.S =

However, all is not well in terms of trade b/c US has concerns w.r.t. —

- a) High-tariffs
- b) IPR issues (specially in Pharmaceuticals).
- c) disagreement over India's Investment Model.
 - i) USA prefers F.I.I. while India prefers F.D.I with substantial presence of the company in India.

d) Dispute Resolution:—

— where India prefers domestic mechanism whereas USA prefers International Arbitration.

India has concerns with the Tariff war w/c USA started with China but imposed on other countries also.

USA has removed India from the special provisions under GSP (Generalised System of Preferences) w/c allowed duty free access to the export of developing countries.

India wants increase in H1B Visa allotted for India. USA has not accepted India's concerns with its social security mechanism. Indians working in U.S. have to contribute to the Social Security Fund w/c is like a dual taxation for Indian working, India wants the contribution to be channelised towards Indian Provident Fund System.

USA has allowed Australia & other countries such facilities but not to India.

* Emerging areas of Co-operation :-

— In bilateral context, recently India & U.S have entered into ICET (U.S. India Initiative on Critical & Emerging Technologies). It can prove to be the next big thing as it will help India to develop capabilities in 5G, 6G, A.I., Quantum Technology, Drones & Space Related Technology.

U.S.A has promised to provide funds for India's Tech Startup & Infrastructure project as a part of TGII Initiative.

↳ (Partnership for Global Infrastructure and Investment.)

P.M. Modi will be visiting in June 2023, & Joe Biden will be participate in G20 summit in September.

They are also going to Co-operate CBRN
↓
(Reducing the threat from Chemical Biological Radioactive Nuclear Warfares)

* Present State of Relations b/w India - U.S. -

The Relation has gone beyond bilateral dimensions. Today India & U.S. are seen as "The Two bookends of Stability in Indo-Pacific".

Here Indo-Pacific represent - Western Pacific Ocean & entire Indian Ocean.

↳ (From Malacca to South China Sea & reaching to Persian Gulf).

India in Asia-Pacific represent "Act East" & India's policy towards Gulf Region is called "Look west".

Under Modi Govt., the two policies have become integrated. It is officially known as "Act East - link west".

↳ It represent Free & Open Indo-Pacific.

The two bookends of Stability -

a) Eastern QUAD.

b) Western QUAD.

What is the Objective? -

- Objective is the Containment of China. The strongest Geo-political logic behind the Strategic Partnership b/w India and US.

This Combination is India-US collective effort to counter China's BRI. China describes BRI as community of Common Destiny. BRI is about connecting the world market by building Infrastructure.

Similarly, in both the QUADs connectivity is the main theme. It provides an alternative to China.

6

Chinese project are not transparent, Ecologically sustainable, U.S. led initiative alongwith like-minded countries aim to offer better Models.

* India U.S. Relation in -

a) Northwest

b) East - Asia

a) West - Asia :-

- i) India's position on crisis in West Asia.
(Afghanistan & Iraq)
- ii) India - Israel relation
- iii) India - US & the Vision of New World Order.

* Importance of West Asia in Global Geo-politics :-

West Asia is the most sensitive Region in Global Geo-politics. It has been permanently in the State of Conflict.

What makes the West-Asia the Global Geo-political Hotspots ? -

i) Location of West-Asia.

- Westasia connects the three Continents :-

a) Europe

b) Africa

c) Asia

ii) Black Gold. (Oil)

↳ Most important commodity in world trade.

iii) Place of Origin of 3 Abrahamic Religion -

a) Christianity

b) Judaism

c) Islam

8

* Evolution of Geo-Politics in West Asia ? -

i) Beginning of Modern Age (Hil W.W.I) -

- West Asia was under Ottoman Empire. One of the largest empire. The Empire at its peak covered the region of Central Asia, West Asia, Southern Europe & North Africa.

In present time, Turkey considered itself as the successor of the Ottoman Empire. Turkey had historical rivalry with Russian Empire.

What is the Present Scenario ? -

- Turkey & Russia relations have improved. Despite being a U.S. ally, member of NATO Turkey's position on War in Ukraine is not Pro-West. Turkey even opposed the extension of NATO to include Sweden & Finland. Despite US opposition, Turkey purchased S-400 from Russia.

What is the Present Game of Turkey? —

— Turkey has historical rivalry even towards west.

Historical Background :-

- 1) Since Turkey also has potential to emerge as a Pole in Geo-politics b/c of its location, access to oil, as a transit zone alongwith the Soft Power, European state went for dis-memberment of Ottoman Empire.

Turkey was defeated in W.W.Ist. "Treaty of Sevres" was imposed on Turkey.

- 9) Turkey lost its territories in west Asia. Most of the territories came under occupation of Britain & France.

- b) A restriction was imposed on Turkey for 100 years as a punishment.

↳ i) Turkey can't drill oil even in its territorial water.

ii) Bosphorous State was made an International Waterway.

These restrictions were for 100 years a/c Turkey. B/c of restrictions, Turkey was never Economically strong.
